Tuesday Morning, June 13. People's Mass State Convention AT DIADESON, THURSDAY, JULY 13.

ALL MEN opposed to the Repeal of the Misson ise, the Extension of Slavery, and the Rule the Slave Power, are invited to meet at Madison, Thursday July 13, to take such measures as may be deemed necessary to prevent the future encroachments of the Slave Powtary to prevent the fature encroachments of the Bard A or-ce, to repeal all Comprocises in favor of Slavery, and to establish the principle of Freedom as the rule of the State and National Generalments. The time has come for the union of all Free Men for the sake of Freedom. There is but one alternative. We must usuate and be free, or divide and be englaved by the prectorian bands of the Blavehold ers and their Nebraska allies. MANY CITIZENS. June 9th, 1854.

A private despatch received in this city yester day afternoon announced the arrival of the Pagific, with news of a decline in flour of 2s. in the week, which includes part of the Niagara's dates,

Our own despatch in this case, as in two previous ones, was delayed till 9 P. M. We have just received letters informing us of the time at which the others left Buffalo, and it looks very much to us as if nothing but inexcusable negligence, or what is worse, downright wrong doing, could have prevented us from receiving them. We shall ascertain where the trouble is before long. Indeed wethink, we know where it is, now,

From our New York Correspondent.

NEW York, June 7th.

The recess of Congress, in order to adapt its apartments to the long summer sittings, will do little to purify the members, it may be feared, however much it may cleaned the Halls and furniture. It will be a memorable Congress thisnot in any good sucse-but memorable for its treachery to the Constitution, to Human Rights and to Liberty. But it will be rebuked, and its action will. I cannot doubt, in its great outrage of the Nebraska Bill be—not reversed—for that I would not have if I could—but made the basis of independently and as American citizens, we shall continued, persevering, systematic assaults upon hear no more of "Native" or "Know Nothing" Slavery, wherever accessible lawfully, as in the District of Columbia, the Territories, the Coastwise transportation of Slaves, the Fugitve Slave Law, and upon that provision of the Constitution which estimates five Slaves as equal to three men-Since it has pleased the South, with the aid o Traitors from the Free States, to annihilate and make a mock of the Missouri Compromise, the spirit of Compromse is dead for us too; and we have now only to go for the true principles of Freedom, and seek to carry them out, without further concessions of any sort. Repeal, therefore, of the Nebraska fraud, is far short of the proper aim of the Free States, which should be even for the annihilation of Slavery as a political element throughout the Union; and the absolute refusal, under all circumstances, to admit any new State into the Union as a Slave State. The Missouri Compromise being at an end, so should that be whereby Texas was admitted with the privilege of a future division into additional Slave States. The Programme, in short, of Freedom, should, as it seems to me, to be somewhat in this wise: Agitate, Agitate, Agitate for 1st. Repeal of the Fugitive Slave Law and

for a Jury trial, at the place where seized, of every alleged Fugitive. 2d. An amendment of the Constitution, so as to prohibit the enumeration of Slaves in the

Federal population.

And if there: be any other measures whereby

And if there, be any other measures whereby the Government of the United States can be delicated wholly, entirely, absolutely and irrevocably from Slavery, then go for that, as for instance—and that may be worth much—the removal of the seat of Government from a Slave State to series such at all innocent, and unworthy jeal-practices not at all innocent, and unworthy jeal-practices not the nate mainly of New York and Phile. ousies on the part mainly of New York and Philadelphia, that the sent of Government was originally fixed in a Slave State, which even with all these appliances and help could not then have been effected possibly, but that the great name and influence of Wesbington were on the side of the Slave States. It is never too late to correct a great wrong-carry the seat of Government over the Alleghanies, plant it in the Free West where it cannot be desecrated by foreign onemies, nor dishonored by the trail of Slavery. Let the Capitol of the great Free Republic lift up its ucbowed head on the soil which has never known the tread of a Slave, and in an atmosphere where the Slavery dies. These measures, and each and overy other lawful expedient, for freeing our noble country, our cherished institutions, our present its leaders, it has been robbed of the esteem of the people and with the miserable action of those, who claim to be its leaders, it has been robbed of the esteem of the people and with the miserable action of those, who claim to be its leaders, it has been robbed of the esteem of itol of the great Free Republic lift up its ucbowendeavors and our future hopes from the blight, the curse and crimes of Slavery, we are now not only free to aim at, but are called upon to adopt. in self-defence; for we are tauntingly told that the Victory over Freedom, gained by the Nebraska fraud, is but the first step, and that Slavery is to be proclaimed and acted upon as the cornerstone and hope of our nation.

To this end war-war to be wared by the Free States, which has always furnished soldiers, and at the cost of the Free States, which are threefold richer than the Slave States-war is to be made against Spain, in order to obtain Cuba and her slaves; against Mexico, and the whole South American Continent, if need be, all to obtain more Slave States. The Nebraska Fraud is but the entering wedge to the most stupendous project of villiany that ever was engendered. It must be resisted, not simply by acts of defence but by active offence. We must literally "carry the war into Africa." We must attack Slavery wherever it is vulnerable and where it is not vul nerable.

We cannot repose in safety any more upor the good faith of the Slave States to observe compacts whereby Freedom has any advantages .-We must therefore rely upon ourselves alone and use all the means which the laws and Constitution of the land allow for the annihilation of the monster as an element in the Federal Government leaving it, as a local institution, the unenvied possession, boast and pride-if they choose to main tain it-of the Slave States.

VISITORS IN TOWN .- Within the past few days we have had a number of visitors from the East and South, many of them guests of the Chicago and Rock Island R. R. Company in the recent excursion up the Mississippi. Leaving that party at different points, they have struck across our State, taking Madison in the way and tarrying a day or two at Milwaukee. Among the number, were Mr. MITCHELL of the St Louis Intelligencer, Mr. Tober, of the Kingston (N.Y.) Journal, Mr-CHARLES S. BENTON, late Clerk of the Court of Appeals and for four years a member of Congress from New York; the Hon. Mr. Hubbard, Post Master General under Mr. Fillmore's administration; Mr. Spences Kellocq, of Utica, N. Y. &c. Their judgment is unanimous that Wisconsin is the finest State in the West, and Milwankee the handsomest city on the Lakes. They are right as to both points, and for this flattering opinion we are something indebted to the neighborly offices of our friends at Chicago, who took unwearied pains to dipossess these trayellers of any favorable impressions thay might have formed of our city and State, and succeeded thereby in securing for them a most agreeable surprize.

Besides the good auguries which the result of the election yesterday enables us to form of the future of Philadelphis, it has another and most interesting significance. It indicates in a marked unmustakable manuer, the santiment of this community respecting the coarse of the Federal Government in relation to the Nebraska Bill. We declared during the canvess that he popular view, however it might turn out, would be understought in the cast of the president and Congress touching that impulsion measure. The issue was deep ward and precinct, and the voice of the macuriation against the Administration and its adversarial properties. Appeals and for four years a member of Congress

Native and Foreign Organizations.

The result of the recent charter elections in New Orleans, Washington, Palifadelphia, Kingston Now Haven, &c., wherein, according to the paners, a new element has placed a constituous part, furnishes the Morning News with a bovel arument in favor of Slavery and Nebmeka. That oaper thus invites our German & Irish fellow-citzene to band together, as such, in support of the Pierce Administration and the Nebraska iniqui-

Our Irish and German follow-citizens will per eive that by acting with the apposition to the debraska Bill, they are unconsciously supporting nd warming into existence and power, the Naand warming into existence and power, the Native American organization, actuated by the same spirit that fired convents and churches at Philadelphia and elsewhere, and that seeks to deprive our adopted citizens of the right of suffrage and of all voice in the combut of a government whose material and political interests and whose martial renown they have done so much to establish at home and abroad.

This appeal to the fears and prejudices of one class of our citizens is worthy of the News and of the cause which it advocates. Desperate diseases call for desperate remedies; and the strait to which PIERCE & Co. are reduced by their Pro-Slavery agitation, is past all cure unless the foreign-born opulation of the Republic can be callied su masse their support. Hence the demagogueical appeals of the News and kindred "doughface" prints -appeals which will no doubt be studiously kept op so long as a hope remains of thereby delading ermans, or Irishmen, into the ranks of the bo qua democracy. Every intelligent foreigner in this State knows

I the News does not, that "the right of suffrage" and a "voice in the conduct of the government" is guaranteed to him by the Constitution, the fundamental law of the State, and that there is just as much probability of Wisconsin's being erected into a monarchy, as of their being deprived a one jot or tittle of their secured rights. So much for that point. As to the alleged "Native American organization," it is the offspring of just such insidious and ill-advised articles as the one above quoted from the News. Those so-called 'demo cratic" organs, which bave striven for years to embody and array our follow-citizens of foreign birth, in one compact mass, under their party standard, are chiefly responsible for the very 'Native American organization" which they now afect to condemn. If Germans and Irish band and act together, as a clan, in all our elections, Amercans will do the same. If, on the other hand, our German and Irish fellow-citizens, governed by wiser counsels and turning a deaf car to the insidious and interested appeals of party hacks organizations.

How many Germans support the Ne-braska Bill.

The Morning News is exceedingly anxious to make its readers and the public helieve that ou German fellow-citizens in this State and elsewhere throughout the west, have "changed front" on the Nebraska bill, and now support a measure which only a few weeks since they indignantly and almost unanimously denounced. We have no idea that the Germans are thus easily blown about by every wind of doctrine, and sundry extracis from German papers, which we met with n our last exchanges, confirm that belief. The Weltberger, for Instance, published at Buffalo, has the following paragraph in its issue of June 3d : BEAR in Minn.—According to the Anzsiger des Westens, there are 30 (say thirty) Germans in St. Louis who are willing to perform the dirty work of the South, and support the Nebraska swin-dle. True, these thirty are but an Insignificant number, when we reflect that there are but forty thousand Germans in St. Louis Scill scentler. thousand Germans in St. Louis. Still, considering the enormity of the offence with which they stand charged, even this number of permanent to

In regard to the result of the Nebraska Bill the Evening Post says in a prophetic tone, which will also surely be fulfilled: The President has adopted a course which throws the greatest share of the disgreec upon the Democratic party. On him and his administration and on all Northero friends of the Nebraska bill in Congress, and on the Democratic party, which offerded the present Executive the power to commit the cril, the neople will evenge this great political sia of the present day. The Whigs of the free States have taken cars that not a particle of this political guilt can be traced in them. Their Representatives votal against the Nebraska bill—like one man, just as though they had pre-concerted it, that the just as though they had pre-concerted it, that the the people and with whatever excellent maxims of legislation and policy we may pride ourselves in other questions, the action of yesterday dooms us to a minority for years."

NEBBASKA IN LOUISIANA, -Col. HUNT of New-Orleans, one of the very few Southern whigs who stood up manfully for honor and good feith and in opposition to the Nebraska elemination. is heartily sustained by his constituents in this position. The New Orleans Crescent says:

"We might indeed remark with safety that nine tenths at least of Col. Hunt's constit concur in the sentiments advanced by him in his speech on the Nebraska Bill. We are all in favor of maintaining Southern rights, but believe at the same time that they may be sustained with-out a covert, still less a flagrant, breach of pligh-ted national faith."

Assore.-The Manitowoo Tribune says that the new vessel just launched at Two Rivers is asbore at that place but with little prospect of of the Nebraska Bill puts us in a minority for being saved. 1 We are under obligations to our friends

THE PRILADELPHIA VICTORY,-The result of the Charter Election in Philadelphia is the most brilliant and decisive political triumph within our ecollection. Under their new Charter Philadelphia city and suburbs now form one single municipality, and heretofore, in the districts combined, the Democrats, so called, have almost invariably been in a majority of from 3 to 5009,-Now Judge Connad, Whig, is elected Mayor by 8,537 majority; HASLEHURST, (Whig) Solicitor, by 11,051 majority; while the other city officers

and nine-tenths of the Council are also whigs .-

The Philadelphia North American thus "points the moral" of this signal victory: Besides the good auguries which the result

PAYING THEM OFF.—EDWARD Lines of Waukesha County has been appointed appraiser of School Lands by the Governor. Ho was a member of the last legislature and distinguished himber of the last legislature and distinguished nim-self for his zeal in doing the dirtiest work of the Barstov clique. The people are receiving their reward for electing the candidates of the self-styled Democratic party. They have drained the cup of retribution until they are now reaching the Less,—Madison Journal.

Here is another member of the Legislature re-

warded for his subserviency to the Executive and his disregard of the popular wishes and the public interests, by an appointment to office. The office too, if we mistake not, was created by act of the last Legislature, Mr. Lecs' vote belping to make it. We infer, at least, that the appointment is made under the law of last winter authorizing the State Officers to re-organize the board for the appraisal and sale of the School and University Lands. If so, like the previous appointments of Senators Hunten, McLane and VITTOM o offices which their votes created, it is a scandalous prostitution of Executive power, and a flagrant breach of the State Constitution. How long and how patiently will the People continue to suffer these things at the hands of their corrupt, profligate and unprincipled rules? When will they rise in their might and drive these faithless stewards from the posts they have disionored and the power they have abused?

The News of yesterday intimates that a branch of the "Know-Nothing" organization is about to be established in this city. The authority of the News is rather questionable, on other subjects, but where it is a question about "Know-Nothings" the News is at home and can doubtless be reli-d upon,

The Wars of the Roses.

The Madison Democrat, of Friday, the organ of our State Administration, copies and calls attention to a letter from a friend in New York, it which the following passage occurs:

which the following passage occurs:

The President is going to issue, to norrow, a strong proclamation against fillibustering expeditions to Cuba. A great caution is observed by him and the cabinet as to all movements against Spain, and there are plenty of democrats who charge the President with a seant of firmness in this and great many other questions. I understood of one of your Wisconsin men, that the President had promised to remove the P. M. in Milwaukee, Norman if it could be proven that he was the had promised to remove the P. M. in Milwaukee, Noonan, if it could be proven that he was the owner and conductor of a certain ipage; which had been doing nothing else lately but abusing the State Administration and other prominent democrats of your State. These facts, I understand, were positively proven and laid before the President; and, also, that this Postmoster was a defaulter, &c., &c. The President is said thereupon to have looked like a man who had promised more than he intended to fulfill and in order to get rid of the matter, referred it to the Wisconsin delegation? Where is Old Hickory? Where is Old Hickory?

This idea of making the President of the Unied States the consor of the Wisconsin Press is neculiarly "democratic." It appears that "Barstow and the balance 14 demand N conan's head, because the Newsbus abused the State Administration and as the President naturally besitates, the organ of "Barstow and the balance" proceeds to abuse him. This specific may, or may not work a cure. But if Mr. Preace and his Cabinet ostracise all democrats in Wisconsin, who denounce the State administration, and "Barstow and the balance," by way of returning the favor, proscribe all who oppose Nebraska and the National administration how much of the party will be left by the fall?

Washington Items .- "Inspector," the Washngton correspondent of the N . Y . Courier and Enquirer, telegraphs as follows to that paper, under date of the 7th instant :

WASHINGTON, June 7.—It is believed that the Democrats are designedly keeping the House and Senate without a quorum until the twelfth instant, in order to enable the President to consult the Committees on Foreign Affairs respecting an Executive communication to Congress in regard Cuba.

The Prairies are on fire with indignation. Mr.
Msee of Indiana, will introduce a bill amending
the Fifth Section of the Nebraska Bill, so as to
establish real popular sovereignty. All accounts represent the popular excitement at the West, against the Nebruska traitors, as irresistible.

The Waukesha Democrat refers to Mr. Hone, the Immigrant agent's letter, in the Argus, apologizing for the acts of the present State ad-

ministration, as follows: Things have come to a pretty pass, when the State Administration can find no defenders among the honest-hearted, and tax-paying people—when none, but the recipients of its paperoral recipients of its unnatura ad unconstitutional bounty, are found to "do it

Mr. Benton perceives and admits the utler futility of all efforts to carry any scheme through Congress, and will henceforth confine himself to the advocacy of a waggon road, with stations for the protection of emigrants.

NEW BOAT ON LARE WINNESSOO,-The Osh cosh Courier has the following:

We learn that Mr. Naff the owner of the Steam-boot Montello has started with that boat for the Mississippi via Fox and Wisconsin and if the thing is practicable intends bringing back a first class Pittsburg boat to run between this city and Cases Priceourg boat to You between this city and Taycheedah, making a more direct route to Mil-wankoe and Chicago. Such a boat is much needed. Our citizens are holding out every encouragement to him in his catchprise. There is also some talk of a company being formed to purchase two boats at Pitisburg for the River trade.

SERGULAR CASUALTY.—The correspondent of the Newark Advertiser from Genoa in speaking of the sinking of the steamer Herculaneum by a collision on the Gulf of Genon says:

A POLITICAL PREDICTION.—The New York Evening Post, an able Democratic paper, but carnest in its opposition to the Nebraska iniquity, makes the following prediction as to the political consequences of that infamous measure;

The democratic party has lost is moral strength in the free States; it is stripped of the respect of the people by the misconduct of those who claim to be its leaders; and whatever boast we may make of our excellent maxims of legislation and years to come.

"Let the deep mouthed Cannon Spram!"—
Wheomsin is Free!—Yesterday afternoon, the booming gun, told of the people's joy. Hundreds of our citizens joined in the general rejoining, and all were too happy to speak their satisfaction that they live once more, in the state nominally and judicially free from the control of tyrants, and the slave-catcher's grasp. We shall send no more Glovers nor fugitives to Canada, Come from the north, the Best and the South if you wish, to live in a state, uncursed by the Fugitive Slave Law.—Racine Advocate. "LET THE DEEP MOUTHED CANNON SPEAK!"-

In all calmness we can assure the people of the North that they are likely to be the chief anfferers, if abolition does get the upper hand. When danger menaces the South upon her own soil, she will know how to meet it, and she will deal with it so thoroughly that it will never give trouble again, but before that period the streets of many Northern city will run red with blood.—Richmond Disnotch.

This paragraph is very suggestive. The real name of the murderer of the Wickham family at Cutchogue, L. I., is Nicholas Beheehan, After being arrested and locked up, he made the following confession, though since that time he has pretended to be insane, and to know nothing Wanpun

"I started from Greenport at about 8 o'clock on Friday night, for Cutchogue, and arrived at Wickham's house by 11 o'clock. I got the post-axe from the wood pile, and got into the house through the kitchen window, and passed up into the kitchen garret where the uegro boy slept.—

Finding they had escaped I tried to get down stairs, but could find no door, though I had a light wills me, so that I was obliged to pass into the second story hall and through Mr. Wickham's room to the window. I threw my axe and lamp out of the window and then dropped out myself. I went back to Greenport; got there at 2 o'clock in the morning and slept till daylight, intending to leave by steamboat for New London in the morning. Mrs. Mownto's Farewell to the Stage.

The audience assembled to take leave of Mrs. Mowatt on Saturday crening was, perhaps, the most select, brilliant, appreciative and exclusively fashionable that has ever been gathered within the walls of a New York theatre. About two thinds were ladies, and their gay dresses and bright soiles, formed a most enchanting scene. The first families—old Knickerbockers—were out in full force. The play was the "Lady of Lyone." The whole play (except Mrs. M.'s part) was entirely beneath criticism. The audience cared nothing for that, however. Their oration was to the woman, and they charitably ignored all deficiencies on the part of her wretchedly meagre supports. The appleuse was liberal during the piece, but not enthusiassic until the close. Then the heroine of the hour was applauded to the echo, and tumultrously called for. She came forward, eridently very deeply affected, and delivered the following singularly beautiful and appropriate address—the audience being husbed into perfect silence, except when they gave vent to their emotion in precentable in about the following in preparation in a properties in a precentable in about the following in a preparation in a precentable in a broad or a precentable in a broad or and a properties in a precentable in a broad or and a properties in a precentable in a broad or and a properties in a precentable in a broad or and a properties in a precentable in a broad or and a precentable The audience assembled to take leave of Mrs. R H Moulton, Monroe; Stemart & Anderson, Portug

At your hands, and through the leniency of your judgment, I did receive the first stump of dramatic success, and thus my public career was rendered centain. Need I recount how often since then I have been cordially welcomed? As our receipts from the United States during the next four weeks must be very trifling of all breadstuffs except corn. I look for a large decrease in stock here, making room for all you can send after oponing of finlend navigation. I therefore shall recommend large abitments of wheat and flour as sen't as you can procure them. Should the receipts at your ports from the interior be even moderate, or not as senramous as is generally shought that they will be after Canals open and for next sirty days, then you can in safety increase your operation as the scarcity of wheat here is undoubted, and the supply of both wheat and thur till next harvest, must be looked for chiefly from the United States. French markets have improved the past week, and we have little ground to expect any further shipments from that country.

But the condition of the financial affairs consiquent upon the war, and the night price for breadstalls will bend to depress the early market below the point to which it should go. If there should be a good harvest in England and at home, the chances are that the gride of Wool riphal that of last year. We put our figures for wool in the table at 25-635c.—Owing to the shot of the wealter, but few lots have made. Owing to the state of the weather, but few lots have made their appearance in market. This week, it is probable that receipts will be large enough for us to establish figures of

A suit was commenced by J. Downer Esq., in assumpsit, Benjamin Ackerley, George Southwell, Wilson Whitman, and William Tucker vs. the City of Milwaukee; the damages claimed are \$100.
No criminal business worthy of note was transacted, and we trust none will be for a few days, that may cause a crowded state of the Court room. The stench from the alley immediately behind the block is intolerable; the windows had to be kept open during the day, to avoid suffication. This alloy has not been cleaned out in several years, and the filth is knee deep; if the Council Room was where the Police Court is, the Council could'at stand the smell which pours daily throthe Police court.

WEATHER.-Sunday was a doubtful sort of

day, the clouds clearing away towards evening, and the sky giving promise of fair weather,-Yesterday moroing was very much like the preceding one, and about 3 P.M., the black clouds gathered in the northwest, and a thunder storm, with lightning and torrents of rain came down laying the dust which had begun to rise in the more elevated streets, and making the mud in East Water St. worse than before. The Gazette contains important news from The Gazette contains important news from Guan-hwny, in which province the city of Loc-chow was taken on the 14th January, and the Lieutenant Governor, Keang-chung-yuen, was slain in its defence. The Emperor is thereby plunged into the deepest greef and indignation, and has ordered the general in commund in that province, Shoo-hing-a, to be degraded from office.

By the last Gazette received from Peking the city was in a defencaless state, and the insurgents within 30 miles. Since then no Gazettes have come down, and the supposition is that the city has fallen. If so, the Tartar dynasty has fallen forever. Her agonics were distracting, and for anothly to gether she was deprived entirely of rest and skep. Every remedy medical men subvised was teled, but without effect; her health suffered severely, and theistate of her legs was terrible. I had often read your Advertisements, and after sources, fair every other read your Advertisements, and after sources, fair every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are painless, without seam or sear, and her skep sound and undisturbed. Could you have witnessed the suffering of my wife during the last 43 years, and contrast them with her pre-ent enjoyment of health, you would indeed fast delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.
